

CITY OF SPRINGFIELD
INTER-OFFICE MEMORANDUM

ATTENTION OF _____ FILE _____

DATE June 21, 1982 _____

DEPARTMENT _____

Re: Oil Spill 1400-1500 S. Wildan Ave.

This office received a call from the City Street Department on the morning of June 16, 1982, stating that they had chip and sealed a street on the morning of June 15, 1982 and that it rained in the afternoon and carried part of the oil off. The spill occurred at 1400-1500 S. Wildan Ave.

Upon investigation it was found that very little oil was carried off of the street. There were a few places in the grass along the street where oil was present. Mr. Jim Barber, Superintendent of Streets and Waterways (City of Springfield), explained that he would have his maintenance crews scrape the oil and grass up in the 2 or 3 places where the oil might cause a problem.

1400-1500 S. WILDAN
